For Immediate Release

Hampden, MA — Private Garden Greenhouse Systems is pleased to announce that it will join this coming season's Extreme Makeover Home Edition on ABC. The company donated a Victorian Glasshouse to a deserving family in Missouri. The build began July 14, 2009 and concluded July 21, 2009

Private Garden has always been a large advocate when it comes to giving back to the community. When Extreme Makeover Edition approached Private Garden to donate a personal Victorian Glasshouse to a family in Missouri that loves to garden, the answer was undoubtedly yes. Once the partnership was completed, Private Garden was able to prepare the glasshouse and send it to the site within two weeks. The company flew out three crew members to install the glasshouse and the feedback of helping this family with such a great gift was one of the best experiences of a lifetime.

The Victorian Glasshouse was given to the Hampton family of Ash Grove, Missouri. In one significant turn of events, Chris and Niki Hampton received a phone call from Social Services and had to quickly decide whether to welcome their four nieces and nephews into their home — a one bedroom cottage that was already very small for the Hampton's family of four. Now Private Garden and the rest of the Extreme Makeover Home Edition donators were able to offer this new family of eight a place to call home. With all the inadequacies with their previous home, they are able to survive with hard work and their love for one another.

“While taking part in a once in a lifetime experience it was great to see what good a group of strangers can do with the goal of helping others in mind. Through our time on site it was interesting to see how friendly and willing to help all the volunteers were from the very start through the very end. It's not your typical construction site where each group does their own thing with no consideration for anyone else. Everyone was there for the Hampton Family and no other reason.” Says Peter Sackrider. Peter was one of the three crew members to fly out to Missouri and construct the Victorian Glasshouse.

The episode will air October 4, 2009 at 8/7c on ABC. Photos will become available at the discretion of ABC. In the meantime, please check out our website [www.private-garden.com](http://www.private-garden.com) for more information.

*Private Garden Greenhouse Systems has been in business for 25 years, and has built more than 500 structures, both residential and commercial, throughout North America. This greenhouse company was started by the Hickson family and continues to run as a family owned and operated business while producing some of the most upscale greenhouses in the industry. The structures come directly from the best greenhouse manufacturers in Belgium. For more information on Private Garden's products, please contact us at 800-287-4769.*
