Happy October!!

Welcome to Private Garden's Monthly Newsletter. We have exciting projects and activities going on every month and now it is time to share it with you, our valued customers and friends. We will be sending out this newsletter once a month around the 15th of every month.

With this newsletter PG hopes give our clients and vendors a better insight into our company, its valued employees and of course our respected and valued customers.

## Our Extreme Experience

In July, Private Garden was asked by Extreme Makeover: Home Edition to donate a PG Victorian Glasshouse to a family in need, and we jumped at the opportunity. In July, we installed the beautiful structure. The episode aired, Sunday October 4th on ABC. Due to the support of our vendors, employees and of course our customers we are pleased to report that it

was an enormous success.

The Hampton Family, Chris and Niki accepted the great responsibility of welcoming their nieces and nephews into their home when asked by Child Services. Although their home was small, they graciously added (4) more children to their family. Chris and Niki made sacrifices only few would even consider. When notified by ABC, PG felt we had a responsibility to help anyway we could. We decided to donate a new Glass Victorian Greenhouse to fulfill a need that Niki had regarding growing fresh vegetables and flowers year round for her family and friends. PG installed the Glasshouse in (3) days with (2) Men from PG and a representative from our supplier Alitex.

PG is honored to have been selected to be part of such a heartwarming experience and wish the Hamptons the best of luck in the future with their new PG Glasshouse. If you missed the episode, want to see it again or just want to watch the extra clips, Please click [here](#).

We have created our Extreme Makeover flier with a letter from the Hampton Family, if you are interested in receiving it please feel free to email me at [jsackrider@private-garden.com](mailto:jsackrider@private-garden.com).

## Planterra Construction Continues ...

Private Garden has started on site construction of a unique and State of the Art Garden Center for Planterra of West Bloomfield, Michigan. This beautiful structure which took (2) years to design and engineer will consist of offices, a plant warehouse, a sales showroom and a one of a kind retail center. The facility is also designed to host parties consisting of 250 people. In today's tough economic times Planterra has designed a facility that is multi purpose which allows them to conduct the many facets of their business model under one roof. The father and son TEAM of Larry and Shane Pliska who are legends in the Interiorscape Industry are now bringing their enthusiasm and knowledge to the Retail Garden Center business.

Please continue to check our newsletter for updates on this exciting project at Planterra.
