Private Garden Greenhouse Systems is donating a Victorian Glasshouse to a deserving family in this coming season's Extreme Makeover Home Edition on ABC. The build took place July 14-July 21, 2009

Extreme Makeover Home Edition approached Private Garden about donating a personal greenhouse to the Hampton family in Ash Grove, Mo. The Hamptons, who love to garden, recently welcomed their four nieces and nephews into their home — a one bedroom cottage that was already very small for the family of four.

"While taking part in a once in a lifetime experience it was great to see what good a group of strangers can do with the goal of helping others in mind. Through our time on site it was interesting to see how friendly and willing to help all the volunteers were from the very start through the very end. It's not your typical construction site where each group does their own thing with no consideration for anyone else. Everyone was there for the Hampton family and no other reason." says Peter Sackrider. Sackrider was one of the three crew members to fly out to Missouri and construct the Victorian Glasshouse.

The episode will air October 4, 2009 at 8 ET on ABC. For more information on the project, visit the [Private Garden website](#).
